# INDIANA

## Automobile Industry

Oliver Hays riding the Hays car in the first automobile race in Indiana.

The Indiana automobile industry has a rich history. It began in the late 19th century with the first automobile race in Indiana. The Hays car, built by Oliver Hays, was the first automobile to be built in Indiana. It was a four-wheeled, open-top vehicle with a steering wheel and a single gear. The Hays car was built in 1895 and was used in the first automobile race in Indiana in 1896.

The Hays car was built in the town of Ellettsburg, Indiana. It was built by Oliver Hays, who was a local businessman and inventor. The Hays car was built using a combination of wood and metal. It was a simple, functional vehicle that was designed for speed and efficiency.
